

ThinkCentre neo 30t Gen 5

Engineered for small and medium-sized businesses, the ThinkCentre neo 30t Gen 5 delivers responsive computing without compromise. Powered by 13th Gen Intel® Core™ i5 processors and integrated Intel® Graphics, it accelerates data processing, supports seamless multitasking, and keeps teams productive. Its compact chassis is purposefully designed to maximize space efficiency, blending effortlessly into modern work environments. Furthermore, with support for up to 32GB DDR5-5200 memory, it ensures effortless switching between applications and reliable responsiveness for business-critical operations.

Empowering the modern workforce with a streamlined desktop experience

ThinkCentre Neo series offers enhanced manageability and security features, along with additional configuration and expansion options.

Maximize efficiency across the workspace with support for up to three independent displays through HDMI and VGA ports. This expanded visual workspace enhances productivity and offers the flexibility to support diverse business needs, from finance and operations to customer engagement, all while maintaining reliable performance.

The Smart Connect feature streamlines multi-device use by enabling seamless transitions between phones, tablets, and PCs. Whether you're streaming apps, searching for files, or managing content, users can manage different devices with just a keyboard and mouse, simplifying multitasking and device control.

The 13.6L tower delivers reliable power in a compact form factor, making it ideal for space-constrained offices. An optional rear system fan improves airflow and helps to maintain stable performance during intensive workloads.

Compact power for growing enterprises

The new ThinkCentre combines enterprise-grade reliability with scalable performance to keep SMB teams productive. Equipped with Intel® Core™ processors, it provides scalable performance for everyday business tasks while effortlessly handling more demanding workloads such as data analysis, content creation, and multi-application workflows.

Seamless Connectivity

Stay productive with extensive connectivity featuring 9x USB ports, 1x HDMI 2.1 TMDS, and 1x VGA port for multi-display support. Easily integrate legacy peripherals with 2x optional serial ports and an optional parallel port, giving your business the flexibility to keep workflows running efficiently.

Comprehensive Security

Built-in FW TPM 2.0 keeps your sensitive data encrypted and safe from unauthorized access. For added protection, the Kensington Security Slot™ and cable lock help secure the device against theft, while a chassis intrusion switch alerts users to tampering attempts.

Smart Design

The ThinkCentre is thoughtfully designed for modern workspaces, combining compact design with full functionality. Its streamlined black finish and minimalist aesthetic bring a professional edge, while flexible horizontal or vertical orientation lets it adapt to any setup.

Built to reduce environmental footprint

Lenovo is making the industry's broadest portfolio of technology solutions more sustainable to help organizations reduce their environmental impact. As a global technology powerhouse, Lenovo is committed to achieving net-zero greenhouse gas emissions by 2050 with targets validated by SBTi.

Recycled or sustainable product materials

Lenovo embraces sustainability by assimilating recycled materials such as post-consumer recycled content (PCC) in its manufacturing processes. Incorporating these materials makes the manufacturing process energy efficient, leading to a decreased carbon footprint and contributing to a circular economy.

- 85% PCC recycled acrylonitrile butadiene styrene plastics

Recycled shipping/packaging content

Lenovo is innovating to increase energy efficiency and the use of recycled content in our devices. By incorporating post-industrial recycled content and recycled ocean-bound plastic, our packaging provides exceptional protection to the device and significantly minimizes waste, while ensuring it undergoes rigorous testing to ensure low chemical emissions.

- 30% Ocean-bound plastic in the bag
- 90% post-industry content recycled expanded polyethylene in packaging cushion
- FSC Certified Carton

Lenovo Premier Support Plus

Lenovo Premier Support Plus offers comprehensive assistance by freeing IT teams from break/fix responsibilities. Its AI-driven predictive issue detection anticipates problems ensuring uninterrupted productivity, while with 24x7 access to experts, remote fixes are seamless. Plus, Accidental Damage handles mishaps and Keep Your Drive ensures security

Asset Recovery Service (ARS)

Lenovo's Asset Recovery Service (ARS) enables secure destruction of data, helps reduce e-waste, and offers a fair market value for your end-of-life IT assets. The service also supports equipment from any manufacturer including PCs & tablets, monitors, servers, phones, printers, copiers and networking equipment.

Lenovo CO2 Offset Service

Lenovo's Co2 Offset Service makes offsetting carbon emissions simple and within the control of the customer. We offset carbon emissions across the average lifecycle associated with each of our devices by providing the option at the point of purchase, supporting the United Nations, Gold Standard®, and Climate Action Reserve.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..

Warranty Extensions

- Purchase additional warranty periods from 1 to 5 years
- Buy at any point with or after your device purchase
- Optional On-site Service

Accessories

Lenovo Performance FHD Webcam

- It has 1/2.9-inch RGB sensor, 95° lens, and 4x digital zoom. In addition, dual microphones can pick-up your voice from up to 2 meters away.
- Features a range of mounting options, from top-of-monitor to tripod, with wide-angle pan/tilt controls.
- Comes with facial recognition technology and Windows Hello 4.1.

PN: 4XC1D66055

Lenovo Essential Wireless Combo Keyboard & Mouse Gen 2

- Embrace the freedom of a clutter-free and cable-free work setup.
- Ergonomically sculpted cups and low-profile island keys for maximum comfort.
- A 2.4 MHz receiver for a seamless keyboard and mouse connection.
