

ThinkCentre neo 50q Gen 6

Built to anchor demanding office workflows, this desktop leverages Intel V Series Core Ultra 5 / 7 Processor with Copilot+ PC capabilities to accelerate analysis, content creation, and multitasking. Integrated Intel AI Boost and high overall TOPS enable on-device AI tasks such as data summarization, automation, and intelligent assistance, while Windows 11 Pro supports secure collaboration, virtualization, and modern management for diverse professional environments, ensuring consistent responsiveness during complex projects, parallel applications, and evolving AI-driven business processes at scale across organizations worldwide.

Empowering the modern workforce with a streamlined desktop experience

ThinkCentre Neo series offers enhanced manageability and security features, along with additional configuration and expansion options.

Engineered for efficiency, the system pairs 16GB LPDDR5x memory with fast M.2 SSD storage to keep datasets, files, and applications readily accessible. Intel UHD integrated graphics further support everyday visualization, reporting, and multi-display productivity without adding complexity or unnecessary power draw in professional business settings.

Designed in a compact 1L Tiny form factor, the lightweight chassis integrates Wi-Fi 7 connectivity and discrete TPM 2.0 security, making the desktop easy to deploy, protect, and manage across fixed workspaces with minimal disruption.

Its compact 1L design optimizes workspace efficiency by fitting seamlessly into desks or behind displays, enabling clean setups, flexible placement, and easier deployment in space-constrained environments without compromising performance or connectivity.
