

ThinkPad L16 Gen 3 (Intel)

Empower business professionals to perform at their peak with a next-gen device engineered for productivity, resilience, and intelligent performance. Powered by Intel® Core™ Ultra 5 / 7 Processor (Series 3) with integrated Intel® Graphics, this Copilot+ PC delivers seamless multitasking and responsive on-device AI, enabling real-time data analysis for consultants in the field, faster content creation for sales teams on the move, and secure, offline AI assistance for executives working across locations. Built with customer replaceable units (CRUs) to simplify maintenance and extend lifecycle value, it also integrates thoughtful accessibility features to support diverse workforces. Designed with sustainability in mind and tested against rigorous MIL-STD-810H standards, this device is ready to handle everything from daily commutes to demanding travel environments.

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad L series laptops offer reliable performance and durability for modern professionals with powerful processors, robust security features, long battery life, and versatile connectivity options, ensuring productivity on-the-go.

The integration of 2W dual Dolby Atmos® stereo speakers delivers immersive audio, making virtual meetings, presentations, and multimedia consumption more engaging. An optional 5.0MP + IR camera provides crystal-clear video quality for video conferencing, along with advanced facial recognition capabilities for secure, hands-free login.

Whether working on a project deadline or managing a client presentation, the 57Wh Rechargeable Li-ion Battery with rapid charge support ensures the laptop allows professionals to work confidently, without worrying about constant recharging.

Optional Intel® vPro® Enterprise offers unparalleled remote management capabilities, enabling IT professionals to efficiently troubleshoot, diagnose, and secure devices from anywhere, ensuring uninterrupted productivity and peace of mind.
