

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad T series laptops offer professional-grade durability, powerful performance with good processors, ample memory, and fast SSD storage. They feature robust security features and long battery life for productivity on-the-go.

ThinkPad T14 Gen 2 (Intel)

MIL-SPEC tested durability, a battery that can last up to 16 hours and a suite of reliable security features make this 14” business laptop the ideal companion device for the road. Although thin and light, it does not compromise on performance. It features the latest 10th Gen Intel Core processors, ultra-fast SSD storage, and modern connectivity ports such as USB-C and ThunderBolt 3 for responsive performance and seamless multitasking.

Experience uninterrupted productivity with features like Modern Standby that allows the device to receive important updates even with the lid closed and resume from standby in an instant. Optional 4G WWAN module enables reliable connectivity when WiFi signal is weak or unavailable

Prioritizes privacy and security. Optional PrivacyGuard technology renders the display unreadable for shoulder surfers. Other security features include optional IR camera with built-in privacy shutter, onboard fingerprint reader and data encryption technologies.

Available in multiple configuration options, this laptop combines powerful performance with the latest features like WiFi 6 technology and Modern Standby
