

ThinkPad X1 Carbon Gen 12

Introducing the next-gen ThinkPad X1 Carbon - featuring powerful Intel® Core™ Ultra processors, designed to enhance graphics performance and elevate AI capabilities. Compared to its predecessors, integrated Intel® Arc Graphics deliver 2x performance boost, ensuring seamless workflows, enriched visual experience, and maximum encoding speed without any slowdown. Experience optimized performance with 40% lower SoC power consumption, leading to more productivity on a single charge with a 57 Whr battery, and a cooler, quieter PC during extended work sessions.

Redefining possibilities with powerful performance and groundbreaking on-device AI

ThinkPad X1 series laptops are chosen by professionals for their durability, portability, and powerful performance. With high-resolution displays, robust processors, and extensive connectivity options, they excel in productivity tasks.

Supercharge your work efficiency with its cutting-edge Computer Vision technology. The innovative Face Sensing feature activates the laptop upon detecting enrolled users in its range. Coupled with the high-performance 8MP camera and the low-light video enhancement feature, enjoy crisp and clear visuals in any lighting situation, ensuring optimal virtual collaborations.

Experience the synergy of form and function with the premium 14" screen boasting an impressive 89.20% screen-to-body ratio and 2.8K OLED display option. The expansive display ensures a more immersive visual experience, while the minimal bezel design with premium aesthetics maximizes viewing area with minimum distractions.

Enhance video conferencing with the high-quality 8MP camera with low-light enhancements, ensuring superior clarity. Furthermore, the auto-framing feature ensures you remain perfectly centered in meetings, while background blur minimizes distractions.

The highest performance notebook

Elevate your professional prowess with this laptop that integrates AI-accelerated experiences, performance, and reliability effortlessly. The revolutionary Intel Meteor Lake architecture delivers up to 2x graphics performance, running tasks independently and servicing AI workloads for a responsive user experience. Moreover, a 42% larger thermal capability ensures sustained performance during prolonged work sessions without overheating.

Personalized Control

The redesigned keyboard with tactile markings aids in typing accuracy and facilitates exact maneuvering for the visually impaired. The enhanced TrackPad with an optional Haptic TouchPad offers precise and controlled navigation with AI tuning and enhanced palm rejection algorithm, contributing to a more intuitive computing experience.

Seamless Functionality

The Flip to Start feature ensures quick access to the notebook, allowing swift startups during busy workdays. Additionally, fingerprint authentication is now on the keyboard, offering a secure login experience while also enhancing accessibility.

Redefining Minimalism

Designed for optimal functionality, the sleek body of the laptop boasts a minimal iconic silhouette, embodying sophistication without unnecessary visual complexity. The introduction of a new logo, elegantly debossed, ensures a smooth and distraction-free typing experience.

Built consciously for a sustainable future

Lenovo provides smarter technology that contributes to a sustainable future for customers, colleagues, communities, and the planet. As a global technology powerhouse, we are committed to achieving net-zero greenhouse gas emissions by 2050 with targets validated by Science Based Targets initiative.

Recycled or sustainable product materials

Lenovo is focused on integrating sustainable materials and minimizing waste through innovative product and packaging design. Incorporating substantial recycled content such as magnesium, aluminum, and postconsumer recycled content (PCC) in manufacturing contributes to a circular economy while reducing carbon footprint.

- Use of recycled materials (90% recycled magnesium C cover & 55% recycled aluminum + 45% hydro aluminum D cover)
- PCC in plastic parts

Recycled shipping/packaging content

Lenovo reduces its overall carbon footprint by integrating bio-based materials like bamboo and sugarcane into laptop packaging, ensuring it is 100% rapidly renewable. Our commitment to sustainability is reflected in our zero plastic packaging solutions across products, including the latest X1 Carbon.

- Made from 100% recyclable bamboo and sugarcane
- FSC Certified Plastic Free Packaging

Asset Recovery Service (ARS)

Lenovo's Asset Recovery Services (ARS) enables secure destruction of data, with minimum impact on the environment and a fair financial return. The service also supports equipment from any manufacturer including PCs & tablets, monitors, servers, phones, printers, copiers and networking equipment.

Lenovo TruScale DaaS

TruScale Device as a Service is a fully managed subscription-based model that offers access to a complete portfolio of hardware (including workstations, laptops, tablets, and phones), software, and trusted services with a flexible payment approach with consistent solutions and a predictable, transparent fee.

Lenovo CO2 Offset Services

Lenovo's Co2 Offset Service makes offsetting carbon emissions simple and within the control of the customer. We offset the carbon emissions associated with each of our devices by providing the option at point of purchase, ensuring we do our part toward reducing the overall carbon footprint.

Lenovo Services

Lenovo delivers tailored sustainability services, devices, and infrastructure solutions from our broad portfolio, working closely with you to support your target outcomes across the IT lifecycle..
